Hi Patrick,

Sorry to be already making a change to what we sent, but Lynn just heard from OAR regarding the CERCLA/EPCRA Ag rule and getting the final animal numbers, and it looks like they won't have the final numbers for the various farm animals (i.e. swine, chickens, cows) until the [REDACTED] timeframe. This means that our FAR date will have to be moved from [REDACTED] to [REDACTED] (i.e. [REDACTED]), since OP will not let us proceed with FAR until we have those final numbers.

Thanks,
Kim

Subject: administrator's policy calendar.

Hello

We have received the request to update the OSWER portion of the Administrator's Policy Calendar---which includes rules, guidances, reports to Congress, grants, public meetings/announcements...well, ANYTHING that the Administrator needs to know about. This information will be used to brief the White House; and answer general questions from the public.

We **need to update for items with dates going through June 2012**. Note, the final date of the action could go beyond April but a milestone (that the Administrator needs to know about) during development may be before or during June.

I started the update for some of the items (for your review and input), which are highlighted in yellow. Usually there are some deleted entries (text is struck out) because they are now complete, but not for this time..

I know that the holidays are approaching, and that many people are going to be out. So, please let me know that someone in each of the offices got the email, and an approximate date that you can respond. At the latest, please provide me your input by noon on 12/30/11, so OSWER can meet the AO deadline the first week of January. Your **edits** and/or **additions** can be provided in the text of an email or, if you choose to include your edits and/or additions within the text of the attachment, please highlight them in a different color than yellow so all changes can be easily identified.

Many thanks. Happy holidays.

Kathryn
